

# POWERDECK

---

Modular and smart electric deck oven  
for pizza, pastry and bread

 **PIZZAGROUP**

## PowerDeck: one oven, many cooking possibilities.

Its multifunctionality and flexibility in managing parameters and functions make it perfect for pizzerias, pastry shops, bakeries, gastronomies, and supermarkets. It comes with unique and trendy finishings to perfectly fit open kitchens in public areas. Able to quickly bake perfect pizzas of all types, delicious brioche, and the most fragrant crunchy bread.

## GENERAL FEATURES

- AS Ultra-fast heating with ActiveStone:** supreme thermal performance with reduction of heating time by up to 50%, and energy consumption up to 25%, compared to traditional heating systems. Exposed top heating elements are precisely controlled to always provide the needed amount of heat during the cooking process
- x9 Cooking capacity of up to 9 pizzas** with a diameter of 13", per baking chamber
- 840 °F (450 °C) max temperature.** Perfect for any dough, also high hydrations products requiring a very short cook time, like Napoli-style pizza
- Fashion hood design with digital controls** and stand available as options
- One, two, or three baking chambers** each with a thermally insulated door, reflecting double glass window and two interior lights
- 20% Industrial control for a maximum temperature stability and low energy consumption,** 20% less than a traditional same size oven
- The industrial-grade touch screen, with integrated timer,** is functional, simple to use and programmable with just a touch
- Customizable look thanks to the possibility of choosing different finishes of noble and precious steel,** resistant to temperatures and continuous use

Made completely in stainless steel for long lasting life working 24/7

American Made control components installed

Heavy duty pizza oven

10 menu settings can be pre-programmed

Automatic start (for each deck) weekly programmer

Counter balanced doors

Double glass door

Armored electric elements

Safety thermostat

Easy to clean

User and Service friendly

Certifications : UL-ETL

Warranty: 1 year parts and labour

4.0 Ready: possibility to control the ovens from remote and visualize and save all the production statistic

\*special software needed

## OPTIONAL FEATURES

**Cooking chamber fully coated with refractory stone** for perfect heat distribution and stable cooking

**High-power hood** with digital speed motor controlled

### INTERNAL DIMENSIONS (of one baking chamber)

Model	Width	Lenght	Height
<b>PowerDeck</b>	41,3" 105 cm	41,3" 105 cm	5,5" 140 cm

### WEIGHT

PowerDeck 9	PowerDeck 9+9	PowerDeck 9+9+9	Stand for 1 oven	Stand for 2 ovens	Stand for 3 ovens	Hood
485 lb 220 kg	925,90 lb 420 kg	1410,90 lb 640 kg	180,80 lb 82 kg	172 lb 78 kg	163,10 lb 74 kg	110,20 lb 50 kg

### NOTE

Minimum 4 Inches of clearance is required on all sides of the oven.  
When stacking multiple ovens, ditancial ring must be applied between each unit to ensure ventilation. At any time and without any notice the Manufacturer reserves the right of implementing all useful and necessary modifications for products improvements.

## OTHER INFORMATION

### INSTALLATION SPECIFICATIONS

Installation phases require 4 - 6 hours.

A pizza/baking specialist will set the oven for your production needs (on request).

All oven parts can fit through a standard 36" x 80" door.

All electrical and ventilation hook-ups are at the customer's responsibility and expense.

This work must be carried out by the proper trade professionals and in accordance to local rules and regulations.

As for ventilation requirements, a specialist is required. A certified electrician is required on site during installation phases.

### ELECTRICAL REQUIREMENTS

<b>Voltage</b>	208 V
<b>Phase</b>	3
<b>Frequency</b>	60 Hz
<b>Current Draw</b>	55 A
<b>Supply</b>	19, 600 kW
<b>Breakers</b>	65 A

- The plug, cable and receptacle are not included.
- The oven's connections must be made by an electrician on the installation day.
